Experience

Apple	Berlin
GeoSpatial Data Engineer (via Akkodis)	Feb 2023-Present
• Drove global data integrity and accuracy by directly impacting and enhancing over 21.4 million datapoints across 62 countries, ensuring superior reliability of geospatial data for millions of users worldwide.	
• Led 11 critical data quality projects across 11 countries, implementing early detection systems and creating reference lists that resulted in an 80% improvement in data accuracy, drastically reducing manual corrections and downstream validation errors.	
• Improved the reliability of global map data by identifying ground truth for 19 complex country cases, directly increasing the accuracy by 90% and ensuring high-quality linguistic data integration.	

Skills:

Tableau, QGIS, SQL, Wrike, Apple Internal programs, GitHub, Snowflake, Quip, FME, Python, RegEx

International Experience

Scientific Collaborator Belgium
Bahá'í International Community Brussels Office (BE) 04/20 - 05/2022

- Coordinated EU-level "Urban Co-creation of Neighbourhoods" initiative across four countries, facilitating dialogue among 110+ stakeholders (MEPs, city mayors, international urban networks, civil society) to advance equitable neighborhood development policy
- Facilitated cross-sector knowledge integration between policy institutions (European Parliament, municipal government), applied research practitioners (OECD, Eurocities), civil society advocates, and community actors to identify shared understandings of equitable neighborhood development and co-creative governance models
